Parent Support Services is presented under the auspices of **ACROSS THE LIFESPAN**, a series of seminars and workshops for individuals on the autism spectrum and their families.

Birch Family Services is dedicated to supporting children, adolescents and adults with autism and other developmental disabilities as they learn, through our education and community programs, to live more independently, obtain competitive employment and become integral members of their communities. We are committed to empowering the individuals and families we support to realize their dreams and reach their fullest potential.

'Across The Lifespan' programming is funded through the City of New York's Autism Awareness Initiative
